

AIRPORT COORDINATION AUSTRALIA

Registered as Airport Coordination Australia Pty. Ltd. (ABN 16 082 075 901)

To Scheduling Departments of

- International Airlines Serving Australia,
- Domestic Airlines serving Sydney, and
- Australian Domestic New Entrant Airlines

**Coordination and Allocation of Timeslots
2003 Northern Summer Schedules
(30 March 2003 - 25 October 2003)
111th Schedule Conference
Vancouver, November 2002**

Timeslot requests for all international services at all Australian International airports, for Domestic New Entrant and Incumbent services at Australian airports using common user terminals and for all operations at Sydney Airport during the 2003 Northern Summer Scheduling period should be submitted to Airport Coordination Australia

NOT LATER THAN 23:59 UTC 13 October 2002,

either by Sita message to HDQACXH, Fax: +61 2 9313 4210 or e-mail: aca@coordaus.com.au. The initial allocation of timeslots will be based on requests received by the deadline. Requests received after the deadline will be accorded a lower priority. **Please note that the IATA Scheduling season for the coordination of Australian airports covers the period from 29 March 2002 16:00 UTC to 25 October 2002 15:59 UTC.**

Submissions should be made in SSIM Chapter 6 (new or old) format in UTC. However, submissions in local time will be accepted, provided that the time mode is clearly stated and variations for Daylight Saving Time periods are correctly accounted for. .

When using the new Chapter 6 format, slot listings for flights with S03 historical precedence should be used as the basis for any changes. These were advised by SHL in September 2002. Airlines wishing to check their detailed slot allocations for S02 should refer to the appropriate section of our Website (www.coordaus.com.au) using their allocated sign-in codes.

All submissions **must** include details for flights that commence in the W02 season on 28 and 29 March 2003 UTC and arrive or depart at Australian airports in the S03 season **after 16:00 UTC on Saturday 30 March 2003**. (Refer also to SSIM Appendix H [d] for out of season movements).

AIRPORT COORDINATION AUSTRALIA

Registered as Airport Coordination Australia Pty. Ltd. (ABN 16 082 075 901)

For your guidance scheduling guidelines as declared by the appropriate airport authority and NAC utilisation charts are attached to assist with planning. (Sydney Airport and International Terminals at Adelaide, Brisbane, Cairns, Darwin, Melbourne, and Perth are SCR [Level 3] airports):

While no formal schedule co-ordination exists for Coolangatta, Hobart, Port Hedland and Townsville, in view of the very limited facilities available, airlines planning international operations or domestic operations requiring common use facilities through these airports are requested to forward their proposed timings by SMA (Level 2 Airports)

The 1995 Sydney Curfew Act and subsequent regulations do not permit the operation of any international movement earlier than 06:05 local, except for 24 international passenger aircraft arrivals per week in the 05:00 hour. Airlines are reminded that the curfew at Sydney (23:00 - 06:00 local) is absolute. Also, longhaul flights must takeoff by 22:45 local if the runway direction is to the North (Runway 34L) and it is therefore recommended not to **schedule** longhaul international departures **later than 22:00** local.

Note: The Australian Government regards the proper observation of the curfew as an obligation which **must** be followed by all carriers operating into Sydney. It is a very important operating requirement of the Airport. Any deliberate breaches of the curfew will be fully pursued through the Australian courts. The Australian Department of Transport has advised that any deliberate breach will be a matter which the Government will have full regard to in considering future access to the Airport for the carrier concerned.

The Sydney Airport Demand Management Act 1997, Slot Management Scheme 1998 as amended in 2001 and Sydney Airport Demand Management Regulations 1998 apply to all runway movements at Sydney Airport. It is an offence to arrive or depart without a slot allocated by Airport Coordination Australia, therefore, great care has to be taken with flights that operate over the season boundary in order to avoid severe fines.

Yours faithfully,

Ernst J. Krolke
Chief Executive Officer
28 September 2002
